-PHLOX-

For brilliant, snowy colors in masses do not fail to have a bed
of phlox. They bloom in July and August when most flowers are
gone. Recent introductions have added to the popularity of this
plant. The following varieties are selected on account of their
large size, form and distinct colors. Plant $1\frac{1}{2}$ ft. apart.

Bouquet Fleuri, -white with crimson eye.

Copuette, -white with pink eye.

Ferdinand Cortez, -deep crimson.

Fraulein G. Von Lessburg, pure white, Immense panicles.
